Federal Communications Commission
Office of the Secretary

Hello Ms. Remy,

I have a simple question regarding FCC-18-3A1 which is eliminating several obsolete rules governing TV broadcasting.

https://apps.fcc.gov/edocs_public/index.do?document=348854

DOCKET FILE COPY ORIGINAL

First, I applaud this effort to do this "cleanup" of the rules. Thanks very much for doing it! :)

But as long as we're getting rid of rules created for analog television broadcasting, why not amend (if not eliminate) the rules for FM broadcast stations that also were created for analog television?

Specifically, 73.201 (add 87.9 and Chan 200), 73.501(a)(^1), and pretty much all of 73.525, 73.825, 74.1205.

Thank you,

- Aaron
